IN12 – smart surveillance solution

IN12 (Wi-Fi sensor alarm panel) that connects up to 12 sensors, 2 temperature probes and an energy meter and allows low bandwidth monitoring of remote sites from an NOC.

1. Door/Shutter Open/Close
2. Movement Detection
3. Smoke Detection
4. Temperature Sensor
5. Vibration Detection
6. DVR camera tampering
7. Energy Meter
8. Lighting Control / Hooter
9. IN12 Panel

IN12 – compatible sensors

Door contact sensor

Shutter contact sensor

Motion sensor

Smoke sensor

Temperature sensor

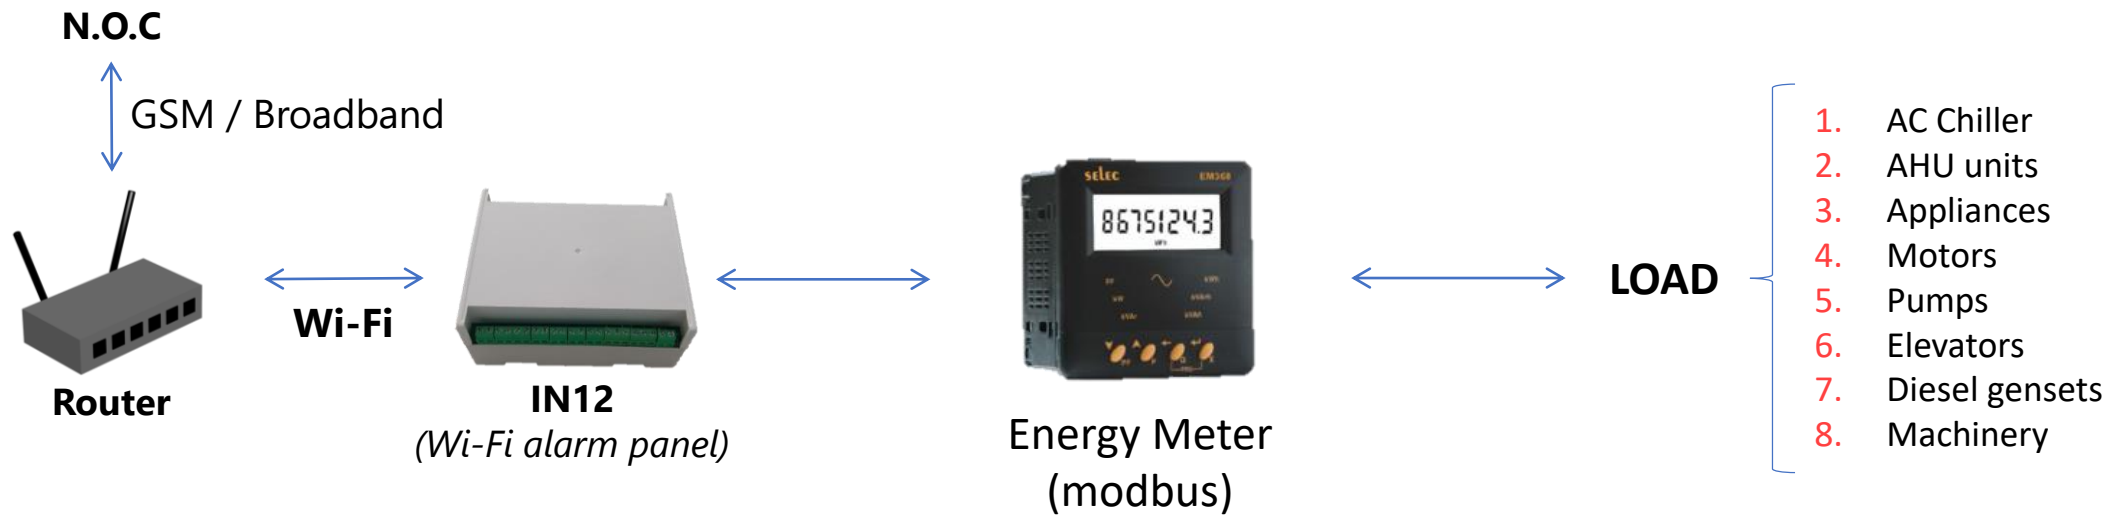

Glass break / vibration sensor

Energy Meter (modbus)

IN12 – energy monitoring solution

IN12 (Wi-Fi sensor alarm panel) that connects up to 12 sensors, 2 temperature probes and an energy meter and allows low bandwidth monitoring of remote sites from an NOC.

Thank you!

Listen. [Learn](#). Listen. [Solve](#). Listen.

AHOY SYSTEMS is driven by our customer's imagination. We strive to develop scalable internet-of-things (IoT) solutions for our customers that enables them to save money, automate the tedious repetitive work, drive efficiency in operations and focus on their business growth.
